

■ DUPLEX TEST - PAGE 1 (FRONT)

This is the FRONT of the first sheet.

If duplex printing works correctly:

- This page should be on the front
- Page 2 should be on the back of this sheet
- Page 3 should be on the front of the second sheet
- Page 4 should be on the back of the second sheet

Duplex Mode: Long Edge (Book-style flip)

Expected Layout:

Sheet 1: [Page 1 Front] → [Page 2 Back]

Sheet 2: [Page 3 Front] → [Page 4 Back]

■ DUPLEX TEST - PAGE 2 (BACK)

This is the BACK of the first sheet.

If you can read this on the back of page 1,
then duplex printing is working correctly!

■ Duplex printing SUCCESS!

The printer correctly printed on both sides.

■ DUPLEX TEST - PAGE 3 (FRONT)

This is the FRONT of the second sheet.

This should be on a separate piece of paper from pages 1 and 2.

Testing multi-sheet duplex printing...

Page 4 should be on the back of this sheet.

■ DUPLEX TEST - PAGE 4 (BACK)

This is the BACK of the second sheet.

Final page of the duplex test!

■ DUPLEX TEST COMPLETE!

If all 4 pages printed correctly on 2 sheets:

- Sheet 1: Page 1 (front) + Page 2 (back)
- Sheet 2: Page 3 (front) + Page 4 (back)

Then duplex printing is working perfectly!
